Study Guide for Final Exam
AGEC 1113

The final will be given Monday, May 5, from 10-11:50 AM in AGH 101 (our regular classroom).

Only use regular calculators. Smartphones not allowed (scientific calculators are okay).

You may use all of the cheat sheets you made for exams 1-3, in addition to another cheat sheet (9.15 x 11 inches, one side only, handwritten, name on back). You will have to turn in all of your cheat sheets with the test. We have kept some pictures of the cheat sheets, so be sure to use only ones given back to you in your folders, with nothing additional written in it.

The final exam is comprehensive, pulling material from Exams 1-3 and the topic of personal finance covered after Exam 3. It is a multiple choice exam, where you will answer all the questions on an orange scantron. Each question is worth one point.

Perhaps you lost confidence in my ability to grade accurately and fairly given my mistake in Exam 3 (and I deeply apologize for that). That concerns me, so I will establish a system to make you 100% confident. In addition to listing your questions on your scantron, you will also mark them on the test booklet and will take the test booklet home with you. Immediately after the final I will post an answer key, allowing you to grade your test yourself. Then, when I post the grades I calculate you may compare them to yours, and if you feel it was graded incorrectly contact me immediately and we will identify the discrepancy.

(1) [From questions 15-29 and 39-40 of Exam 1]
(2) [From questions 15-29 and 39-40 of Exam 1]
(3) [From questions 15-29 and 39-40 of Exam 1]
