

Dear Student:

To fulfill part of their honors' contract, my honors students are asked to administer a survey to other OSU students regarding food preferences. Because many of these students have the same friends, and I want to make sure any one person does not answer more than one survey. Therefore, I am asking you to please indicate your full name below in legible print, and to then sign your name indicating you have completed one but only one of these surveys.

You will notice that this sheet is not attached to any survey. At no point will your name ever be matched with the survey you complete, so your survey answers are completely anonymous.

Once all the surveys are completed and we have verified that all the respondents answered only one survey, this document with your name and signature will be shredded and disposed of by May 15, 2014.

Students should only complete the survey if they are 18 years of age or older.

Sincerely,

A handwritten signature in blue ink that reads "F. Bailey Norwood". The signature is written in a cursive style with a large, stylized "F" and a long, sweeping underline.

F. Bailey Norwood
Associate Professor
Department of Agricultural Economics
Oklahoma State University

Your full name: _____

If you agree with the following statement please sign below: *I have or will take one and only one of surveys of this type from a student in AGE 1113.*
