

References for *Agricultural and Food Controversies: What Everyone Needs To Know*

Books published Oxford Publishing's *What Everyone Needs To Know* series do not include references, but of course, every author uses references when writing the book. For those who wish to know the references associated with page of the book they may consult the following table.

In the first column is the page number in the book, and in the second column are references associated with that page. Know that a reference for page X may also be the source of material for a the previous page as well.

Page Number	References
